**Bannockburn, IL**, July 8, 2008 –The Weiland Financial Group, Inc. (WFG), the industry leader in account analysis for corporations and financial institutions, today announced Save the Children has chosen WFG’s Bank Administrator™ (BA™) to manage their multiple bank relationships and signatory management. Recognized for their financial and organizational accountability, Save the Children will use BA worldwide to monitor and report on their financial institutions and processes. Additionally, BA will facilitate the fiscal transparency and reporting necessary for audits and compliance.

“In this age of regulations, information is key,” said Michael P. O’Brien, Senior Account Executive. “WFG is proud that the secure online presence of Bank Administrator will provide ongoing monitoring from multiple remote locations around the globe. It means we’ll be working together to improve the lives of children around the world.”

Eliminating the repetition and complexity associated with managing multiple bank relationships, BA will systematically relate bank accounts, account contacts, account signatories, signatory limits, and authorities with each parent company or subsidiary. Business Process Management (BPM) prevents errors while executing tasks within a workflow. User-defined tasks are performed according to corporate and regulatory conditions.
