BRMEdge™ Outsourcing

Expertise. Efficiency. Results.

From account balances, rates, and earnings credits, to service charges, prices, and volumes, your account analysis statements are a rich source of data that cannot be ignored. Unfortunately, many treasurers do just that. Even with award-winning automation tools like BRMEdge, treasury departments lack the time and expertise to properly analyze their bank fees, identify billing discrepancies, and control their accounts.

Thankfully, there's a more productive way.

With **BRMEdge Outsourcing**, Weiland's experts will analyze your bank bills so that you don't have to. Each month you'll receive detailed impact reports and a customized executive summary with:

- Urgent action items
- Personalized advice
- Bank, fee, and service summaries
- Analysis trends
- Detailed recommendations

You'll gain a comprehensive view of your service usage that makes it easy to track discrepancies through to resolution. And if you need help, an account analysis expert is just a phone call away.
